

BHAVESH NATHOO, MANAGER

Bhavesh was appointed as a Manager at Oyster Consulting in 2008. Prior to this, Bhavesh worked with KPMG where he was promoted to the position of Manager.

Bhavesh has over 5 years professional experience in external audit and risk advisory services. In external audit, Bhavesh worked exclusively on leading teams on financial statement audits and coordinating engagements as a Senior Accountant within KPMG's Audit division. He worked across a variety of industry sectors, and was involved with clients such as Halliburton, BHP Billiton Australian Ethanol Limited, Hire Intelligence, Bemax Resources and Finbar International.

With KPMG's Risk Advisory Services division Bhavesh's role included planning, conducting fieldwork, sample testing and report writing. Bhavesh managed and was the key contact for Perth internal audit's largest individual client, the Department of Housing and Works. Bhavesh was also seconded to LionOre Australia where he assisted in developing, formalizing and re-engineering business financial and operational procedures and policies for the corporate office and three mine sites. He also assisted in the implementation of these procedures across the business. Working with KPMG Risk Advisory Services, Bhavesh's clients have included Chevron Texaco, Wesfarmers, Bemax Resources, LionOre Australia, Oil Search, Iluka, Sinosteel, RAC, HBF, Department of Housing and Works, Public Transport Authority.

At Oyster Bhavesh has been exposed to a variety of projects including:

- Implementation of a Fuel Tax Credit project for Rio Tinto. This included developing and implementing new fuel tax credit management policies for all sites, developing and implementing a log book survey across applicable sites, and developing a consolidated financial model to calculate the fuel tax credit for all 41 of Rio Tinto's sites.
- Relocation of non site essential administration services to Perth for HWE Mining. This included business case development through to implementation and all aspects of change management.
- Development of a rail tariff model for a West Australia based rail and port operator.
- Working capital optimisation to release cash and maximise flexibility and strategic options for Straits Resources.

Bhavesh has a Bachelor of Commerce degree from Curtin University with a double major in Accounting and Finance and has been a member of the Institute of Chartered Accountants in Australia since 2006.

Bhavesh enjoys travelling, playing squash and is currently learning to play golf.
